### **For Immediate Release: Kalindi Khal Trek – Safety and Rescue Update**

Team Starry Nights is pleased to confirm that all participants involved in incident at the Kalindi Khal Trek have been safely rescued and are in good health. The incident, which occurred during the trek at high-altitude terrain, was promptly addressed through the coordinated efforts of the local support team, DMC Team Starry Nights, and under the guidance of Indian Army officials.

The operation involved swift mobilization of rescue personnel, ensuring the safe evacuation of all trekkers from the affected area. The professionalism and prompt action of the rescue teams played a crucial role in mitigating any potential risk, ensuring the safety of every participant involved.

List of Trek Participants:

- Vaibhav S.
- Gaurav K. (Trek Lead)
- Vedant A.
- Mayuri P.
- Simran J. (Trek Lead)
- Anshika S.
- Tanvi T.
- Rahul S

Upon immediate extraction, all members underwent a primary on-site medical assessment, which confirmed that none had sustained injuries. Subsequently, each participant received a thorough full-body medical examination to ensure complete fitness. Following these evaluations, all participants have been safely transported back to the base village and are under continued observation for precautionary measures.

Team Starry Nights extends its sincere gratitude to the local rescue personnel, the Army officials, and all supporting staff whose timely response and coordination ensured the safety of all trekkers. The incident underlines the importance of professional training, effective emergency planning, and collaboration between trekking organizers and official authorities in high-risk trekking operations.

Team Starry Nights reaffirms its commitment to providing safe and memorable trekking experiences, adhering to the highest standards of safety, risk management, and participant well-being.
